
LEADERTRACK

NativelyAI Hackathon Submission
Uttara Sawant

PROBLEM STATEMENT

Keeping up with reading goals and turning good book ideas into actual habits is surprisingly hard:

- **Life Gets Busy:** It's easy to buy great books, start strong, and then completely lose track of progress or momentum.
- **Information Overload:** You read a fantastic chapter, but a week later, key takeaways fade without a simple place to store them.
- **No Fun Tracking System:** Basic notes apps and spreadsheet logs feel dry and don't make it motivating to build a steady reading routine.

SOLUTION

LeaderTrack Product Demo: Demonstrates a 3-step workflow for tracking book progress and daily streaks, logging reading duration (15–60 mins) and habits, and extracting key takeaways/quotes.

Core Features: Highlights four key tools—a **Leadership Book Tracker**, quick **Session & Time Logging**, structured **Wisdom & Insight Notes**, and a searchable **Centralized Wisdom Feed**.

Tech Stack: Frontend: React + TypeScript + Tailwind CSS (using Lucide icons), Data Storage: Client-side localStorage (offline-first, no backend database required), Hosting & Deployment: Vercel (via vo)
